

Developing Future Leaders Today

While the profile of Chapel Hill and Carrboro is changing constantly, there remains a need for talented leaders. Leadership Chapel Hill-Carrboro is a program designed to ensure that there is a pool of Leadership talent for the future success of our community. Participants will learn about the social, cultural, political and economic facets of the community from today's leaders. Leadership skills are enhanced during a series of hands-on workshop sessions with local experts. Leadership participants also complete the Leadership "Passport," an agenda of community projects and exercises. The Small Miracles® project pairs Leadership students with area non-profit organizations to learn about their mission and to implement a fundraising plan to meet specific needs of that organization.

Through exchange of ideas and community experiences, participants begin to develop specific interests in the concerns of their community and emerge equipped with the skills and knowledge to impact their communities.
